

THP DEVELOPER INQUIRY FORM

Taos Housing Partnership is developing a local program policies and procedures manual to be able to support developers interested in providing below market and affordable housing. The manual describes the process for committing units or resources and how those units or resources are managed by THP on behalf of the local community. Once the manual is adopted, THP will be able to provide consultations with interested development partners. Until this program is in place, THP has to be limited in its conversations with developers and is prioritizing developments that have feasible development plans, zoning and infrastructure. Please review questions below and fill out if interested in consulting with THP. [A digital version of this form can be found here.](#)
